

ATTENTION GENERAL CONTRACTORS AND DESIGNERS:

O.R. CEILING CONSTRUCTION IS COMPLICATED.

WHY SETTLE FOR A SUPPLIER? YOU NEED AN EXPERT PARTNER.

The space over the operating table is prime real estate, and everyone wants the right “home” for their part. Unfortunately, the equipment you choose often doesn’t fit the role you expected, leaving you stuck between starting over with a new supplier or reworking all your plans.

START OFF ON A PATH TO SUCCESS.

The only way to avoid this problem is to work with a partner that has the widest range of product solutions with the experience to match. Creative duct connections, integrated lighting, comprehensive structural support, unrivaled clinical protection, we can provide all the solutions you could want in one tailored package. Avoid the do-overs from the start by taking a look at all the solutions Precision Air has to offer.

ALWAYS GET A PACKAGE TAILORED TO YOUR PROJECT

WHAT YOU GET FROM NON-SPECIALISTS

- Solutions that don’t fit the space
- Conflicts with other in-ceiling elements
- Design and construction rework
- Difficult, time consuming, costly modifications
- No added clinical value

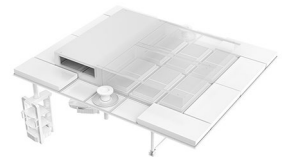

WHAT YOU GET FROM PRECISION AIR

- Seamless fit and finish, tailored for any space
- Clean, conflict-free design
- Predictable and successful installation
- Endless flexibility
- Next-generation and unrivaled clinical protection

SURGICAIR® FLEX

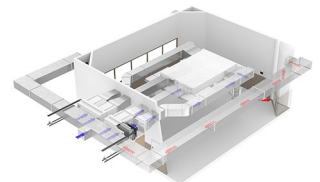

SURGICAIR® PLENUM

SURGICAIR® TRACK

SURGICAIR® MONOFLEX

SURGICAIR® ZERO

EVERYTHING YOU NEED AND NOTHING YOU DON'T

Avoid capability gaps. Choose the only specialized, fully capable O.R. airflow partner from the start.
